CAREER OBJECTIVE

Data-driven Business Analytics professional with hands-on experience in participant maintenance, beneficiary operations, plan corrections, and retirement plan administration. Skilled in identifying and resolving 401(k) compliance and processing errors, analyzing data for accuracy, and building reports that support informed decision-making. Seeking a challenging role where my expertise in business analytics, data visualization, and process improvement contributes to operational excellence and client satisfaction.

PROFESSIONAL EXPERIENCE

Financial Analyst – 401(k) Retirement Plan Correction Team **Jul 26, 2025 – Present**

Principal Financial Group · 401(k) Retirement, Insurance & Pension | Plan Correction & Beneficiary Operations

- Recipient of the Rising Star Award for outstanding performance and accuracy within the 401(k) Retirement Plan Correction Team.
- Identify, research, and resolve 401(k) plan errors and processing discrepancies, ensuring corrections align with plan documents and ERISA requirements.
- Processed participant maintenance requests: address/name changes, beneficiary updates, and account maintenance.
- Handled beneficiary investment processing upon participant death, ensuring accurate fund transfer per plan guidelines.
- Reviewed and validated compliance documents: death certificates, DOD verification, beneficiary details, and relationships.
- Verified vesting percentages, outstanding loans, and pending transactions prior to processing corrections.
- Coordinated with internal teams on exception and correction cases; maintained ERISA compliance and regulatory adherence.
- Performed quality checks for accuracy and timely correction/transaction completion; contributed to SOP-driven process improvements.
